PROFESSIONAL SUMMARY

Highly experienced Architect and Urban Planner with more than 26 years of professional experience in architecture, urban planning, design management, project delivery, and technical coordination. Strong background in integrating the art, science, and business of building, with proven ability to lead multidisciplinary teams, manage complex projects, and deliver sustainable and context-responsive design solutions. Experienced in architectural design, urban development, landscape, project management, technical office leadership, and professional coordination with clients, consultants, and contractors. Also committed to continuous professional development in sustainability, healthcare design compliance, executive management, and emerging applications of artificial intelligence in architecture and urban planning.
